

Challenging YOU

BUSINESS LEADERS

Invest in the Future

BE PART OF THE SOLUTION

You and your organization CAN make a difference. Consider engaging with our future cyber defenders and leaders with opportunities like:

- Apprenticeships
- Internships
- Adopt a school cyber program
- Adopt a team and mentor them
- Offer a "shadow day" for IT and governance roles
- Make a financial investment through a donation
- Provide a scholarship

The ideas are as many as you choose to create. We are here to help you help us to reach out to our youths and let them know we do care about our future and theirs. It is only with their help that we all will live in a safer cyber world.

Don't wait until tomorrow. Email us today at:
